FLORIDA STATEWIDE (as of 6/13/2020)

HILLSBOROUGH COUNTY (as of 6/13/2020)

COVID-19 INFORMATION

Pay more attention to the **positivity rate** than the count increase... 50 positive out of 1,000 tests is the same as 5 positive out of 100 tests... it's the positivity rate percentage of the testing that matters - the percentage of positive results out of the day's or week's testing. This number is trending upward - now in the 7% range, up from the 3-5% range a couple weeks ago. Possibly from the partial opening of the state as well as Memorial Day activities. New information from Hillsborough County is attached to the e-mail that delivered this Oracle. **Do you part! Frequent forceful handwashing with soap for at least 20 seconds, keep your hands away from your face, and perform social distancing!** Please stay in touch with reliable information outlets to get your facts.
