ZIP CODE DISTRIBUTION (as of 7/18/2020)

As you can see from this map, the red areas are showing the highest concentrations of COVID-19 cases. Out of the 52 zip codes in Hillsborough County, the "urban" areas of Plant City (center of the map, mostly south of I-4) are among the highest over the two week period 7/1-13/2020, with zip code 33527 ranking 10th highest in Hillsborough County, followed by 33567 (12th), 33563 (14th) and 33566 (20th). Attached are some files with the most recent Hillsborough County Emergency Policy Group information.

COVID-19 INFORMATION

Pay more attention to the **positivity rate** than the count increase... 50 positive out of 1,000 tests is the same as 5 positive out of 100 tests... it's the positivity rate percentage of the testing that matters - the percentage of positive results out of the day's or week's testing. Hillsborough's number is holding in the 20% range, but hospitalizations are on the rise.

Do you part! Frequent forceful handwashing with soap for at least 20 seconds, keep your hands away from your face, and perform social distancing! Please stay in touch with reliable information outlets to get your facts. Here are some good information sources:
